

Home Fire Preparedness Campaign

JUNE 19TH, 2015

The American Red Cross instituted a new five year program to help in decreasing the incidence of fire deaths and injuries in our local communities by 25% through increasing the prevalence of early detection and warning. This program allows local residents to request to have smoke detectors installed in their homes **at no cost to them** and receive a free fire safety and disaster preparedness presentation. The time required is typically less than 15 minutes. Call our office for more info or to schedule an appointment.
