## **EMSCO announces nearly \$4 million expansion, adds jobs**

EMSCO has announced plans for a nearly \$4 million expansion at its Anniston facility, located at 1501 Sentinel Drive.

EMSCO is known as the metal industry's trusted expert for fast, on-demand induction furnace rebuilds and repair, and is known by their slogan as "The Melting Industry's First Responder."

The company's Southern Operations, led by Vice President Jimmy Horton, has been located in Anniston for over 30 years, and will see the addition of 14 jobs to its current workforce with the production of HyprCool® Hybrid Process Cooling Systems.

"We have been very pleased with the quality workforce that has run our Southern Operations for three decades. It became an easy choice to expand our operations in Anniston", said EMSCO President Jim Dyer.

"Our Induction furnace and coil repair operation will now be the home of our R&D and manufacturing division, and house our manufacturing facility where we will design and build hybrid adiabatic process cooling towers for a variety of industries."

EMSCO Inc. was founded as Electric Melting Service Company in 1977. EMSCO, and its trained and experienced induction melting professionals, serve half of the foundries in the U.S., offering service for induction melting equipment by any OEM and maintaining a massive inventory of spare parts and ancillary operating supplies.

Three service locations (Massillon, Ohio, Anniston, Ala., and Pico Rivera, Calif.) provide Steel Shell, Box, European Style, Table Mount, and Channel Furnace repair and rebuilds, including in-the-field service, throughout the United States. The Massillon, Ohio location serves as EMSCO headquarters; EMSCO's Installation Division is located in Rancocas, N.J.

“EMSCO’s investment reflects their commitment to its workforce and our community,” said Mayor Vaughn Stewart.

“The Anniston City Council stands ready, willing and able to partner with all industry to spur job growth and to enhance the quality of life of all citizens.”

#### **The City of Anniston**

Located in the foothills of the Appalachian Mountains in northeast Alabama, Anniston sits as the county seat for Calhoun County and a regional hub for legal, medical, and banking services. Home to the bronze-level mountain bike ride center of Coldwater Mountain, Anniston offers a wide range of recreational options such as biking the Chief Ladiga Trail or visiting the Anniston Museum of Natural History. For more information about the City of Anniston, visit [anniston.al.gov](http://anniston.al.gov).

#### **EMSCO**

EMSCO Inc. was founded as Electric Melting Service Company in 1977. In 1983, EMSCO joined the Inductotherm Group of Companies, remaining independent, but with significant industry reach and access. As the Melting Industry’s First Responder, they’ve built a 40-year reputation for large and small-scale induction coil repair and service, including 24/7 emergency service and on-demand, on-site support to keep foundries up and running after a breakdown. For more information, visit [www.emsco.com](http://www.emsco.com).
